Reasons for granting it

**Urgent
unforeseeable
circumstances**

The COVID-19 outbreak has resulted in drastic travel restrictions and closure of borders between a majority of States.

- Holders of Part-FCL commercial pilot licences who are required both to perform their licence proficiency check (LPC) to revalidate the validity period of their type and instrument ratings and to comply with the applicable operator recurrent training and checking requirements (OPC) in order to continue to exercise their privileges on behalf of their operator are not able to timely reach or gain access to flight simulation training devices (FSTD) to complete the necessary training and checking. Additionally, these pilots are not able to timely get access to an examination for maintaining their language proficiency. This would result in expiry of their ratings and the language proficiency endorsement.
- Holders of Part-FCL instructor and examiner certificates who are required to perform an assessment of competence to revalidate their instructor or examiner privileges in order to continue to exercise their training and checking privileges on behalf of their operator are not able to timely reach or gain access to FSTD to complete the necessary assessment of competence. This would result in expiry of said certificate.
- Holders of Part-MED Class 1 medical certificates who are required to undergo a recurrent medical examination to revalidate their Class 1 medical to continue to exercise their licence or certificate privileges on behalf of their operator are not able to timely reach or gain access to an aeromedical examiner (AME) or aeromedical centre (AeMC) to complete the necessary medical examination. In addition, in many cases medical examiners have been reassigned to support the COVID-19 outbreak in their State. This would result in expiry of said certificates.
- Holders of cabin crew attestations issued in accordance with Annex V (Part-CC) to Regulation (EU) 1178/2011 who are required to undergo a recurrent training, in accordance with the applicable requirements of Part-ORO, are not able to timely reach or gain access to training facilities.
- Holders of a cabin crew medical report as per Annex IV (Part-MED) to Regulation 1178/2011 who are required to undergo a recurrent aero-medical assessment, in accordance with the applicable requirements of Part-MED, are not able to undergo aero-medical assessment.
- Holders of aeromedical examiner certificates as per (Part-MED) to Regulation 1178/2011 who are required to perform medical examinations of the applicants for a Class 1 or Class 3 medical certificate in order to revalidate their relevant AME privileges are not able to timely reach or gain access to their competent authorities. This would result in expiry of said certificates.

	Urgent operational needs	As a result of the extreme operational and resource constraints caused by the COVID-19 outbreak, it is needed to apply this exemption to holders of European licences, ratings, certificates and attestations as well as operators/maintenance organisations when the said circumstances are declared to the CA by either the holder (of the licence, rating, endorsement, certificate or attestation) or the operator/maintenance organisation to ensure a certain level of business continuity for organisations for which Annex III (Part-ORO) to Regulation (EU) No 965/2012 or Annex I are applicable. This Exemption aims to reduce the severity of the disruptions that would otherwise occur due to non-availability of a sufficient number of crew members and aircraft maintenance licence holders to operate on behalf of said organisations.
